LETTER FROM OUR CEO

To our valued professional accounts and community members:

John Harrison
Founder and CEO
Fondateur et PDG
Ecotrend Ecologics Ltd.

We are grateful for your continuing support this past year. I would like to extend sincere thanks to those who joined us at CHEA East and CHEA West. We are glad that we are able to connect industry minds together during these wonderful tradeshow.

In 2023, we have welcomed new faces and partnership opportunities at Ecotrend, which is reflected in this catalogue. It goes to show that despite the disruption and uncertainty from the previous year, Ecotrend Ecologics and our larger community in the Canadian natural health industry have managed to move forward and grow. This year we are excited to introduce our amazing new partners, their products, and the values they bring to our community.

I would like to extend personal thanks to everyone out there reading our catalogue. I feel more confident than ever in my appreciation for this amazing industry and community. My team and I appreciate your 38 years of support to the great brands we represent.

We are looking forward to working with all of you in 2024.

All the best!

LETTRE DE NOTRE PDG

Chers détaillants, chers membres,

Nous vous sommes reconnaissants de votre soutien continu au cours de l'année écoulée. Je tiens à remercier sincèrement tous ceux qui nous ont rejoints à CHFA East et CHFA West. Nous sommes heureux de pouvoir réunir les esprits de l'industrie à l'occasion de ces merveilleux salons.

En 2023, nous avons accueilli de nouveaux visages et de nouvelles opportunités de partenariat chez Ecotrend, ce qui se reflète dans ce catalogue. Cela montre que malgré les perturbations et l'incertitude de l'année précédente, Ecotrend Ecologics et notre communauté plus large dans l'industrie canadienne de la santé naturelle ont réussi à aller de l'avant et à se développer. Cette année, nous sommes ravis de présenter nos nouveaux partenaires, leurs produits et les valeurs qu'ils apportent à notre communauté.

J'aimerais remercier personnellement tous ceux qui lisent notre catalogue. Je suis plus confiant que jamais dans mon appréciation de ce secteur et de cette communauté extraordinaires. Mon équipe et moi-même apprécions le soutien que vous apportez depuis 38 ans aux grandes marques que nous représentons.

Nous nous réjouissons de travailler avec vous tous en 2024.

Bien à vous!

ABOUT US

“Our vision is to unite suppliers, retailers, and consumers through our high standard of ethics in business including equality and sustainability.”

Ecotrend Ecologics Ltd. is dedicated to our people, principles, and planet. We provide premium products, exceptional service, and a truly principled approach to business.

Founded in 1986 by import/export specialist John Harrison of Vancouver, British Columbia, Ecotrend Ecologics has steadily grown from a one-person operation to its current complement of over 50 dedicated professionals. Today, we are a respected international distributor representing high quality products and servicing both retail health stores and alternative healthcare practitioners.

Ecotrend's staff manages over 2500 retail and over 2500 professional accounts, and works with over 120 fantastic and unique brands. We believe in a down-to-earth approach. Family and friends play an important role in the community relationships we are proud to maintain with our brands. Nurturing a foundation of loyalty and trust in our nationwide health-focused community is of the highest importance to us.

Climate Smart, a Canadian government-approved program, requires a detailed assessment of all aspects of a company's carbon footprint. Seven months after starting this program, Ecotrend was able to receive its certification and it is the only company in the Health and Wellness industry in Canada that has committed itself to this level of environmental stewardship. Attaining our Climate Smart certification is an ongoing renewal process that we commit to on a yearly basis. Ecotrend Ecologics also utilizes green energy in our head offices with Bullfrog Power, and we are Better Business Bureau-accredited.

WORLDWIDE INITIATIVES

Ecotrend supports many worldwide initiatives for the protection of nature and the support of marginalized people:

- Plan International – we support 2 foster children, one in Uganda and one in Cameroon
- IFAW – International Fund for Animal Welfare

- David Suzuki Foundation
- Ecojustice (formerly Sierra Legal Defense Fund)
- WWF – World Wildlife Fund

À NOTRE SUJET

« Notre vision : réunir des fournisseurs, des détaillants et des consommateurs sous la bannière de nos normes élevées d'éthique commerciale, dont l'égalité et la durabilité. »

Ecotrend Ecologics Ltd. honore ses gens, ses principes et notre planète. Nous offrons des produits excellents et un service exceptionnel selon une approche commerciale rigoureuse.

Fondée en 1986 par John Harrison, spécialiste en importation/exportation de Vancouver (C.-B.), Ecotrend, qui n'avait au départ qu'un seul employé, en compte aujourd'hui plus de 50. Elle est un distributeur international respecté de produits de grande qualité qui dessert des magasins de détail et des professionnels de la santé parallèle.

Son personnel gère plus de 2500 détaillants et plus de 2500 comptes professionnels, et travaille avec plus de 120 marques uniques et fantastiques. Nous croyons à une approche terre-à-terre. La famille et les amis jouent un rôle important dans les relations que nous sommes fiers de maintenir avec nos marques. La loyauté et la confiance sont pour nous d'une importance suprême.

Approuvé par le gouvernement canadien, Climate Smart requiert une évaluation détaillée de tous les aspects de l'empreinte carbone d'une entreprise. Sept mois après le début du programme, Ecotrend en a obtenu la certification et est la seule entreprise de l'industrie canadienne de la santé et du bien-être à avoir un tel niveau de gérance environnementale. Climate Smart exige un renouvellement annuel. Avec Bullfrog Power, Ecotrend utilise de l'énergie verte pour ses locaux, et est accréditée par le bureau d'éthique commerciale.

PARTNER WITH US

“We are dedicated to our natural health and wellness community here in Canada, and we are very proud of our many retail and professional accounts, as well as our high-quality and innovative partnered brands.”

TEAM SUPPORT

Our sales representative team is located in British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, the Maritime Provinces and Québec. Our sales team possesses extensive experience in the natural health product and healthcare industries. The largest on-the-ground sales team in Canada, the Ecotrend Ecologics team includes a registered holistic nutritionist, clinical herbalist, certified nutritionist practitioner, registered nutritional consultant, registered acupuncturist and homoeopath, and a Reiki and registered nutritional product advisor. Our sales representatives are available to arrange social events, store trainings, and many other hands-on services, as well as digital services and online trainings.

In our main offices, we offer traditional and digital marketing support to our accounts and brands with a team of 3 full-time skilled individuals. The marketing team produces a quarterly newsletter for both our retail and professional accounts which features new brands and lines, or showcases our current brands. We produce the newsletter at no cost to our featured brands, and offer it as a complimentary service to our accounts. We also produce full product catalogues for retail and professional lines twice annually. Our newsletters and catalogues are printed with Forest Stewardship Council-certified sustainable agri-waste sugar sheet, and vegetable-based ink.

Our office support also includes an in-house Quality Assurance representative, Director of Vendor Services and New Vendor Onboarding, as well as our friendly and knowledgeable bilingual Customer Service department offering extended hours and live telephone support. We have a dedicated in-house warehouse team who work diligently to process shipments and orders as quickly as possible. We also provide valuable monthly detailed sales reports and support personnel to coordinate and implement demos and co-op ads.

TRAINING

Ecotrend supports comprehensive trainings via Zoom online video conferencing prior to product launches with brands and our sales team as well as ongoing training sessions.

Ecotrend hosts in-person team trainings during tradeshow months. This gives our partnered brands an opportunity to connect with our account holders, for informative sessions as well as special discounts and sample offers.

NOS ÉQUIPES, NOTRE SOUTIEN

Nous avons des représentants en Colombie-Britannique, en Alberta, en Saskatchewan, au Manitoba, en Ontario, dans les Maritimes et au Québec. Nos vendeurs possèdent une vaste expérience dans les industries de la santé et des produits de santé naturels. L'équipe d'Ecotrend Ecologics, la plus grande équipe de ventes sur le terrain du Canada, comprend un nutritionniste holistique, un herboriste clinique, un nutritionniste certifié, un consultant en nutrition autorisé, un acupuncteur et homéopathe autorisé et un conseiller autorisé en Reiki et en produits nutritifs. Nos représentants peuvent organiser des activités sociales, des formations en magasin et nombre d'autres services pratiques et numériques, dont des formations en ligne.

Dans nos bureaux, nous offrons à nos comptes et marques un soutien marketing complet. Formée de trois membres qualifiés, notre équipe du marketing produit pour tous nos comptes un bulletin semestriel afin de présenter les nouvelles marques/gammes, ou de promouvoir nos marques actuelles. Nous produisons ce bulletin gratuitement pour les marques présentées et nos comptes. Nous produisons aussi des catalogues de produits bi-annuels pour les gammes professionnelles et de détail. Nos bulletins et nos catalogues sont imprimés avec de l'encre végétale sur du papier à base de canne à sucre certifié durable.

Nous avons aussi un représentant de l'assurance-qualité interne, un directeur des services aux fournisseurs et aux nouveaux fournisseurs ainsi qu'un service à la clientèle bilingue disponible selon un horaire adapté. Nos responsables d'entrepôt travaillent d'arrache-pied pour traiter les commandes et les expéditions le plus rapidement possible. Nous publions aussi des rapports de vente mensuels, et notre personnel organise des démonstrations et des publicités co-op.

With 20 plus years in sales including the last 13 years in the Natural Health industry, I have a passion for working with my retail, FDM, and practitioner partners in providing b2b solutions that have a positive result in their business's bottom line.

Passionate about Natural Health; I find my purpose when providing product knowledge in a way that can be disseminated to the public. In my spare time I am an avid downhill skier, and golfer. When not on the golf course, you may find me in the mountains backcountry camping, or hiking filling my camera with lots of landscape and wildlife photographs.

I started my journey into the world of health at the age of 18 with an herbal apprenticeship program. This sparked a deep love of natural remedies and healing. After working in the health food industry for 20 plus years in a retail environment, I joined the Ecotrend team in 2009 covering Vancouver Island and the Gulf Island territories. When I am not working with this wonderful company I spend my down time teaching my own herb classes as well as a government funded program for Aboriginal youth during the summer.

I have been with Ecotrend since July 2013. I have a strong interest in natural health and I'm very passionate about my work. I truly believe that health care and a healthy lifestyle are intrinsically linked, and each serves to support the other. In my free time I love spending time with my family and travelling. I've always believed that travel is one of the best educations that money can buy. Each culture has something unique to offer and I feel fortunate to have had many opportunities to travel over the years.

I have always been interested in natural health. I started taking different classes at Wild Rose College right out of high school. I have worked in the natural health industry almost ever since. I have owned a health food store and a colon hydrotherapy clinic, and after all these years I am still very passionate about this industry. I love that we get to help improve lives and health. I feel very blessed with this new chapter of my life, and am very excited to partner and work with a conscientious company such as Ecotrend, and all the outstanding retailers and professionals in my territory.

I consider myself lucky to have training in traditional and natural medicine. I have fundamental knowledge in medicine, with a European medical degree and a Canadian diploma in Homeopathic and Medical Science. This gives me a holistic view of patients and diseases. I have been working in the natural health industry for many years as a medical representative, medical advisor, and educator while maintaining my private practice as a natural health practitioner. I feel proud that this industry is growing and evolving. I enjoy every opportunity to learn and, in return, am excited to share my knowledge and clinical expertise with other practitioners. It gives me great satisfaction to be a part of the Ecotrend team and share their dedication to people's health and our planet.
